

# Is your child still not feeling well after having COVID?

Children and young adults from newborns to 25 years old can join the RECOVER study to help us understand the long-term effects of COVID, called Long COVID.

To learn more or join, visit [RECOVERcovid.info](https://RECOVERcovid.info)

If your child joins, we may ask your child to:

- Answer survey questions
- Have checkups
- Take part for up to 4 years

You can join as a parent or caregiver too!

This study does not give any medicine or treatment for COVID.

We value your participation and will pay you for your time.
